Everything you need, on the go!

Sync Devices
Sync your Omnipod® System Personal Diabetes Manager (PDM), blood glucose meter, CGM, and exercise tracker so you can see all your data in one place.

Track Lifestyle
Easily track food, medications, insulin, exercise and more to create a digital logbook.

Identify Patterns
See your blood sugar patterns and learn which is your best day and best time of day.

Get Reminders
Don't miss an important task. Set reminders to check your blood sugar, take your medications, insulin and more.

Get Support
Share your data with your care team to get the support you need in between visits.

Access Online
Review detailed reports online at **www.my.glooko.com** in the comfort of your home.

Create an Insulet Provided Glooko Account on the Web

omnipod

Follow These Steps:

1 Navigate to **my.glooko.com**
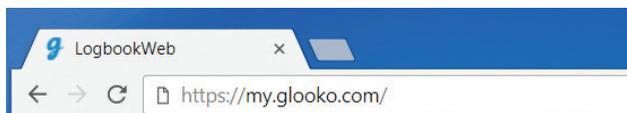

2 Click **Sign Up for Glooko Here** and fill out your information

- Enter a ProConnect Code to automatically share your Omnipod® System data with your healthcare provider

3 Select **I am an Omnipod® System user**

THAT'S IT! See next page to learn how to install the Glooko Uploader to upload data from home.

Upload Data to Your Computer

omnipod

What You Need:

PC or Mac Computer

USB-A to Mini Cable

This cable came in your starter kit. If you cannot locate it, please order a replacement at no cost from www.myomnipod.com.

Omnipod® System PDM

Follow These Steps:

1 Install **Glooko Uploader**

- If you already installed the software, skip to Step 2.
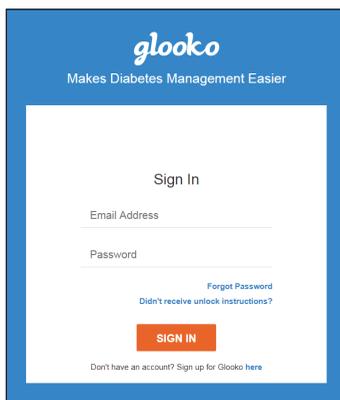

- Log into your account on
  my.glooko.com

- Choose **Settings** in the top right

- Scroll down to the bottom and
  click **Get Glooko Uploader**

- Choose Mac or PC

- Open the file, and follow the prompts

- Restart your computer to complete the installation

2 Upload Your Data

- Open the Glooko Uploader from your desktop and login.

- Plug your PDM into your computer to begin the upload.

- Once the upload is complete, click **View Data**.

* Note: To upload data from the user's Omnipod® System PDM to Mac computers manufactured before mid-2012 utilizing Apple's OS X El Capitan software (version 10.11), it is recommended to use a USB Hub.
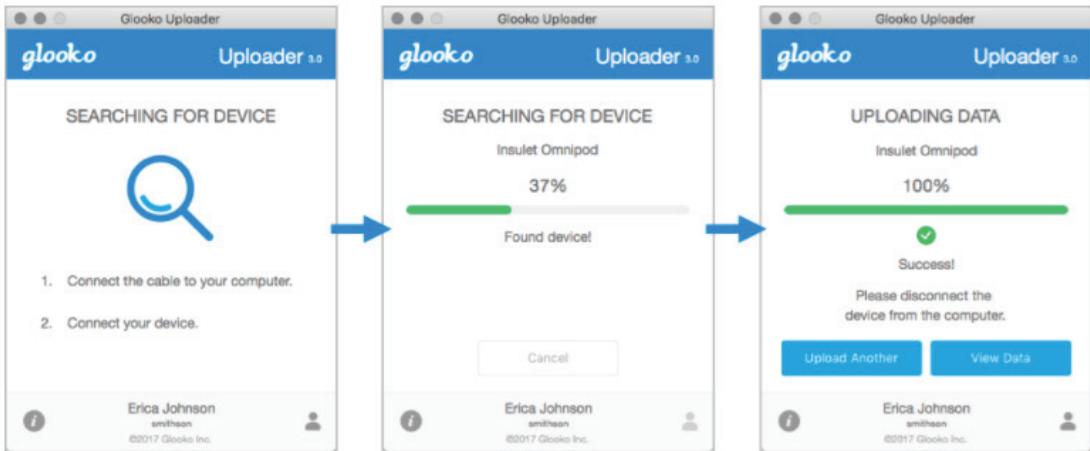

3 Share Your Data

- From the Glooko Web App, click **Create Report** and select reports and timeframe to share.

- Click **Create** to generate PDF.

- Save or print PDF and email or fax to your Care Team.

* Note: if you entered your ProConnect Code, your Health Care Provider will have access to view your PDF reports as soon as you upload.

Insulet Provided Glooko on Your iPhone

omnipod

 (*If you do not have this cable, please order one at no cost from www.myomnipod.com.*)

- Follow the prompts to complete the upload.

3 ## Share Data with Your Care Team

- Click **Share Reports** from the side menu to email or fax reports to your care team.
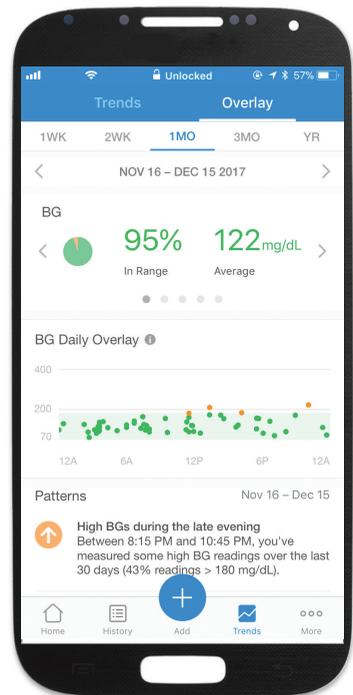

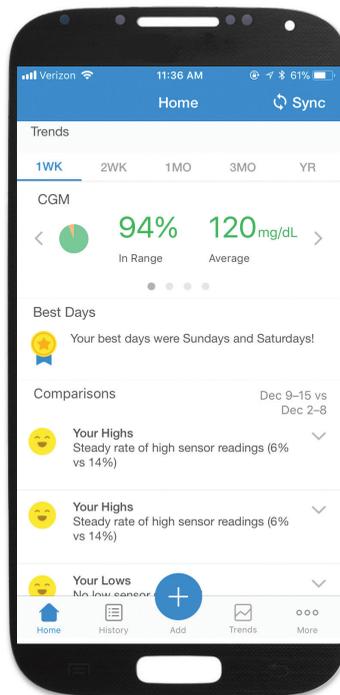

Viewing Your Reports

omnipod

You can view your reports on the Glooko Mobile App or on my.glooko.com. A few great reports to get started with on my.glooko.com are:

1. The Logbook Report

Easily see a detailed daily view of your carbs, in and out of range BG readings, and insulin doses.
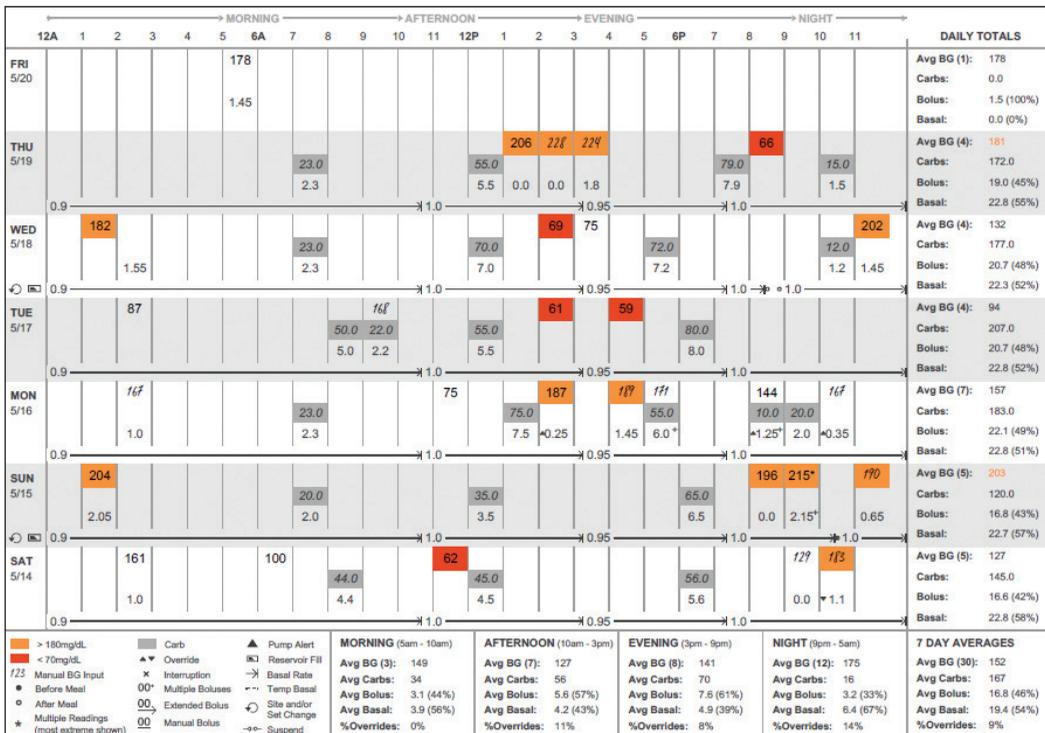

2. The Device Settings Report

When you upload your PDM to Insulet Provided Glooko, your pump settings will be saved. This report is a great resource for you and your care team to reference.

NOTE: *All screen images are examples, and for instructional purposes only*
