Dear Colleague:

We are pleased to provide you with the 2010-2011 Guide to Pediatric Services. Please replace any older versions with this one. You can also find the most up-to-date Guide and other resources for referring physicians on the Physician Resource section of www.chsys.org.

Speaking of resources on www.chsys.org . . .

After much deliberation, Children’s has decided to restructure its physician relations department. For over 25 years, representatives of the health system have traveled the state, bringing to your offices health system news and updates. In turn, you and your office staff have shared your suggestions and concerns with these representatives who then brought them back to system leadership.

We can continue to communicate effectively using today’s new technology. By phasing out the routine travel portion of the physician relations function, we can refocus our resources and attention on a new, enhanced customer service effort.

We hope to use e-mail sparingly yet effectively to share pertinent news with you. We will strive to keep the Physician Resource section of the website robust and easy to use. Finally, we are establishing Physician Link (205) 212-7479 which we hope you will use when you need assistance in facilitating access to services or patient correspondence. This will not take the place of the normal referral process.

We need your help as we make this transition. Please contact Lori Ewoldsen, V.P. Customer Service at (205) 939-9434 or lori.ewoldsen@chsys.org with questions and suggestions.

Very truly yours,

Wm. Michael Warren, Jr.
Chief Executive Officer
Children’s Health System
Physician Resources

One Stop Calling

(205) 212-7200
How does it work?
1. Receive call from referring physician
2. Obtain information about patient and a direct call-back number
3. Contact appropriate CHS physician and initiate three-way call
4. If decision is made to transfer, the Patient Placement Coordinator will call referring facility with room and phone number for the nurse to call report

Physician Link

(205) 212-7479
Physician Link is a new telephone resource for referring physicians. Referring physicians can:
• Call Monday-Friday, 8:00am-4:30pm
• Provide general information
• Assist in patient follow-up
• Assist in physician concerns
• Provide link to resolve issues
• Help facilitate the patient referral process

Please refer to individual divisions for direct referral phone numbers.

Physician Resource Website

www.chsys.org
Our updated website offers several services:
• How to refer a patient
• Patient Placement
• Guide to Pediatric Services
• Continuing Medical Education
• Grand Rounds
The Benjamin Russell Hospital for Children

The expansion project will enable the hospital to expand services provided to pediatric patients; improve operating efficiencies; address growth in the pediatric population served; and increase access to family-centered services, as well as provide an environment conducive to improving and expanding pediatric teaching and research.

Children’s Hospital is currently licensed for 275 specialty pediatric beds and upon completion of the proposed project the number of licensed specialty pediatric beds will increase to 332.

Children’s entire downtown campus will be renamed the Benjamin Russell Hospital for Children, in honor of Ben Russell’s grandfather. The opening of the new facility is planned for 2012.

Board-certified subspecialists in the Division of Pediatric Allergy, Asthma, & Immunology specialize in the diagnosis and treatment of children with allergic and immunologic diseases.

Allergic disorders diagnosed and treated by division physicians include allergic rhinoconjunctivitis (“hay fever”), allergic and nonallergic asthma, urticaria (“hives”), angioedema (swelling disorders), atopic dermatitis (“eczema”), and allergies to foods, stinging insects and medications.

Division physicians also specialize in the diagnosis and treatment of hereditary immune deficiencies (Primary Immune Deficiencies).

The new facility housing the clinic offers next-day appointments and free, convenient parking. It is Alabama’s only all-pediatric allergy group.

**Physicians:**

**T. Prescott Atkinson, M.D., Ph.D.**  
Director and Professor  
Allergy, Asthma and Clinical Immunology

**Coralie S. Hains, M.D.**

The Division of Pediatric Endocrinology at Children’s Hospital provides comprehensive multidisciplinary evaluation and management of children with diseases of the endocrine system.

The Endocrinology faculty is comprised of certified nurse practitioners and fellowship-trained physicians. The Pediatric Diabetes Center is an ADA recognized diabetes self-management training center.

Specific Services include but are not limited to:
- Adrenal gland disorders
- Abnormalities of bone metabolism
- Bone and calcium disorders
- Carbohydrate and lipid disorders
- Diabetes – Type 1, Type 2, and Insulin Pump Therapy
- Disorders of puberty
- Growth problems
- Newborn screening
- Pituitary gland disorders
- Thyroid disorders
- Water and electrolyte disorders

Physicians:

The Division of Pediatric Gastroenterology and Nutrition at Children’s Hospital provides comprehensive multidisciplinary evaluation and management of all gastrointestinal, liver and nutritional problems.

**Conditions Treated:**
- Abdominal pain
- Constipation
- Cystic Fibrosis
- Cholestasis
- Celiac Disease
- Crohn’s Disease
- Diarrhea
- Esophagitis - reflux and Eosinophilic
- Eosinophilic Colitis
- Fecal Incontinence
- Feeding disorders
- Failure to thrive
- GE Reflux
- GI bleeding - upper and lower
- GI infections
- Helicobacter Pylori Gastritis
- Hepatitis
- Lipid disorders
- Liver problems
- Liver and small bowel transplants
- Malabsorption
- Metabolic liver disease
- Motility disorders
- Obesity - Children's Weight Management Program
- Familial Polyposis syndromes
- Pancreatitis - acute and chronic
- Pancreatobiliary disease
- Short Bowel Syndrome
- Ulcerative Colitis
- Vomiting

The General Inpatient Service provides an efficient, patient care focused program for managing admission for busy primary care physicians (PCPs). Provision of comprehensive, efficient inpatient care to patients of pediatric practices in Jefferson and Shelby counties. Communication between the hospitalist service and the families of the children and their pediatrician is a continued focus of the care provided.

General Inpatient Service includes:
- Facilitating the admission process for patients referred by their PCP
- Providing a familiar and consistent approach to inpatient care

Providing gynecologic screening for sexually transmitted diseases, pap smear and colonoscopy. Management of abnormal menstrual cycles, contraception, abnormal pap smears and pelvic pain. Medical and minimally invasive surgical management options of benign gynecologic masses.

Physician:
Kim Hoover, M.D.
Assistant Professor
The Division of Pediatric Hematology and Oncology is a component of the UAB Department of Pediatrics, and the UAB Comprehensive Cancer Center. The Division’s programs are housed in “The Center for Childhood Cancer and Blood Diseases” at the Children’s Hospital of Alabama. The Division is a “Blue Cross/Blue Shield Center of Excellence” in the Children’s Health System.

Most children with cancer and blood diseases treated in Alabama receive their care at Children’s Hospital.

Specific Services Include:

**Pediatric Oncology**
- All forms of Childhood Cancer
- The Division is a member of the Childrens Oncology Group

**Pediatric Hematology**
- Sickle Cell Disease and other hemoglobin defects
- Hemophilia and other bleeding disorders
- Includes a Federally recognized Comprehensive Hemophilia Clinic
- Rare defects of platelets, white blood cells and other blood disorders

**Neuro-Oncology**
- Care of brain and spinal cord tumors

**Pediatric Blood and Marrow Transplantation Program**
- Member of the Pediatric Blood and Marrow Transplant Consortium
- Member of the Stem Cell Institute of UAB

**Pediatric Developmental Therapeutics Program**
**Childhood Cancer Survivorship Program**
**Neuropsychology Program**
- Hope and Cope Care Team
- TLC (Taking on Life after Cancer Clinic)

**Pediatric Hematology-Oncology Fellowship Training Program**
- The only training program for Pediatric Hematology-Oncology physicians in the state

The Division of Pediatric Rehabilitation Medicine utilizes an interdisciplinary approach to address the prevention, diagnosis, treatment and management of congenital and childhood onset physical impairments including related or secondary medical, physical, functional, psychosocial, cognitive, and vocational limitations or conditions, with an understanding of the life course of disability. Commonly treated conditions include cerebral palsy, spina bifida, muscular dystrophy, brachial plexus injury, and limb deficiency, among others.

In addition to its comprehensive outpatient services, the division is home to the only acute pediatric inpatient rehabilitation service in the state, providing services for children and adolescents with acquired brain injuries, spinal cord injuries, brain tumors, strokes, and other disabling illnesses or injuries.

**Outpatient Services Include:**
- Brachial Plexus Clinic - Appt. 205-939-9653
- General Rehabilitation Clinic – Appt. 205-939-9141
- Hospital Follow-Up Clinic - Appt. 205-939-9790
- Intrathecal Baclofen Pump Management – Appt. 205-939-9792
- Limb Deficiency Clinic – Appt. 205-290-4562
- Mobile Neuromuscular Clinic – Appt. 251-439-7873
- Muscular Dystrophy Association Clinic – Appt. 205-939-9941
