FUND A NEED

THE CRITICAL CARE TRANSPORT (CCT) PROGRAM AT CHILDREN'S OF ALABAMA NEEDS YOUR HELP! BELOW ARE SOME OF THE ITEMS THAT THEY NEED TO HELP THEM TAKE CARE OF ALABAMA'S MOST CRITICALLY INJURED CHILDREN.

___ \$10,000 Donation – If we receive 6 \$10,000 donations, CCT could purchase 2 Tecotherm Neonatal Cooling Units. The Tecotherm Neonatal Cooling Units will allow our teams to provide active cooling therapy for critically ill babies. This modern therapy helps reduce hypoxic-ischemic encephalopathy which studies have shown helps reduce mortality and long-term disabilities for patients. Active cooling is currently used in the inpatient setting but is more challenging to do in the transport environment.

___ \$2,500 Donation – If we receive 15 \$2,500 donations, CCT could purchase 15 Gentex HGU-56/P with Dual Lenses and ANVIS Visor. The Gentex HGU-56 helmets will provide more up to date safety, visual and hearing technology for crew members to wear in the helicopter.

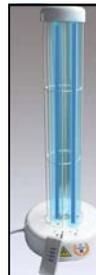

___ \$250 Donation – If we receive 12 \$250 donations, CCT could purchase 12 CEP helicopter helmet hearing protection/communication upgrades. The CEP hearing protection will provide improved hearing protection for crew members, while still providing adequate communications, while in the helicopter. Prolonged exposure to the decibel levels in flight have shown to cause hearing deficits based on years of exposure.

___ \$1,000 Donation – If we receive 15 \$1,000 donations, CCT could purchase new flight suits for each of their flight crew.

___ \$5,000 Donation – If we receive 25 \$5,000 donations, CCT could purchase 25 IV Pumps. The team's current pumps are no longer supported by the manufacturer and new ones are needed.

___ \$500 Donation – If we receive 3 \$500 donations, CCT could purchase 3 Portable UV Lights vehicle sanitizers for ambulance, jet and helicopter. This is a special need this year to help keep patients and staff safe from exposure to Covid-19.

___ \$100 Donation – If we receive 15 \$100 donations, CCT could purchase 15 Pro Flight Gear Zero-G Helmet Comfort Liner. The Pro Flight Gear Zero G helmets liners will provide an added layer of safety and comfort to crew members wearing flight helmets during patient care. The liners have a higher safety rating as well as cooling technology to help battle temperatures and humidity levels here in the South.

Please give credit to the following Rotary Club:

**Mail or Fax Sponsorship form & Payment
to: Children's of Alabama Foundation
Attn: Shelly McCarty
1600 7th Ave. South
Birmingham, AL 35233
Fax: 205-638-2743**

**The included list is CCT's wish list. They hope with donations to be able to purchase these items. There is a possibility that a greater need may occur after a donation and donations made to a certain category may be redirected to other immediate equipment or supply needs of CCT. However, all donations will be transferred to the CCT program at Children's of Alabama to be used for the care and transport of CCT patients.*
